The website does not collect any information automatically, except for informations contained in cookies.

Cookies are IT data, in particular text files that are stored on the Website User's end device and are intended for using by websites. Cookies usually contain the name of the website they come from, their storage time on the end device and a unique number. An entity placing files on the Website User's end device and those who gain access to them is the operator of Recomedic S.C. Eugeniusz Mącznik, Damian Mącznik with headquarter at ul. Paderewskiego 3B, PL-59-400 Jawor

Cookies are used to:

a) adaptation of the Website content to the User's preferences and optimizing the use of websites; in particular, these files allow recognize the device of the Website User and display the website accordingly, tailored to his individual needs;

b) create statistics that help to understand how the Service Users use websites, which allows improving their structure and content;

The Website use two basic types of cookies: „session cookies” and „persistent cookies”. Session cookies are temporary files, which are stored in the User's terminal device until the time log out, leave the website or disable the software (browser). „Persistent” cookies are stored on the end device of User for the time specified in the parameters of cookies or until their time deletion by the User.

The Website uses the following types of cookies:

a) „necessary” cookies, enabling the use of services available under Website, e.g. authentication cookies used for demanding authentication on the Website;

b) „performance” cookies, enabling the collection of information about the use from the website;

c) „functional” cookies, allowing „remembering” selected settings by the User and personalization of the User interface, e.g. the language or region the User comes from, the fontsize, the appearance of the website, etc. ;

d) „advertising” cookies, enabling the delivery of advertising content to Users more adapted to their interests.

In many cases, software used for browsing websites (browsers) allows cookies to be stored by default in the User's end device. Website Users can change the cookies settings. These settings can be changed in particular in such a way as to block the automatic handling of cookies in the web browser settings or in form about theme very time.

Detailed information about the possibilities and methods of handling cookies are available in the software settings (web browser).

The Website operator informs that restrictions on the use of cookies may affect some functions available on the websites.

Cookies placed on the Website User's end device may also be used by partners and advertisers cooperating with the website operator. More informations about cookies are available in the „Help” section of the browser's menu.
